

3•4•5 PROGRAM®

Meetings - Courses - Seminars

Design by C+B Lefebvre

PATENTED PRODUCT EP 2 992 779

- The shape of the tabletop allows various compositions: the 3.4.5 tables can be lined up or grouped by 3, 4 or 5 (or more) to form coherent groups and adapt to the teaching approach.

Our tables are eco-designed and **manufactured in France**. Design by C+B Lefebvre.

MADE IN FRANCE

MODULAR

The photos demonstrate the various configurations to create groups of 3, 4 or 5 participants. On the basis of these groups, you can put together the room layout that you require. The markers on the tabletops help you to effortlessly change the configuration.

3.4.5

Meeting furniture comprised of modular tables that create a dynamic working environment

The 3•4•5 Program

Designed for single use. *With these tables, you are free to create coherent configurations according to your needs.* The shape of the tabletop allows various compositions:

TEACHING AID

- The 3.4.5. table system offers a new approach to the meeting room, serving as a teaching aid for a range of course formats. Their shapes make it possible to create various room configurations for different educational activities.

The 3.4.5 tables adapt to all learning experiences by encouraging strong interactions between participants or groups of individuals.
